PRIVATE BANKING .- We learn from the Builetin that a wealthy individual of this city, in connection with some eminent houses in New-York and Liverpool, intends starting the enterprize of private banking. This we look upon as a matter which will give a questionable relief only. In operations must be confined solely to the reception of deposits and the buying and selling of er change upon other cities. Domestic discounts will not probably be made, and unless they are, that por tion of the community actively and extensively engaged, will alone derive benefit from it. We have heard that Mr. Story is the gentleman who will undertake this enterprize. He will see that money is made by it if no one else does.

Among the notes was one drawn by defendant, which afterwards came into the hands of plaintiff, who sued and recovered a verdict for \$2,194, being principal and interest. SANDS'S SARSAPARILLA.—The proprietors, after laboring for years in experimenting and testing various modes of preparation to enable them to concentrate in the most efficient form all the medicinal value of the true Sarsaparilla, have at last triumphantly accomplished this most desirable result, by means of an entirely new, logenious and costly apparatus. The process throughout is governed by strictly chemical laws, so that the essential principles or the principle on which the restorative virtue of the Sarsaparilla depends is entirely preserved. This is then combined with other articles selected wholly from the vegetable kingdom, all of which are the most powerful purifiers of the blood, which are then concentrated into a fluid extract that has been found by experience to possess the important power of immediately arresting the progress of disease and restoring the patient to perfect health. Therefore, those suffering from diseases arising from an impure state of the blood or habit of the system, such as obstinate Cutaneous Eruptions, Scrofula or King's Evil, Pimples or Pustules on the face, Rheumatism, Chronic Sore Eyes or diseases arising from a injudicious use of mercury, or imprudence in life, have only to use this preparation, which has all combined that can be useful in the removal of their complaints.
